

PLANDERFUL

Jewelry Care Manual

How to wear, clean, store and protect your
Planderful jewelry.

THE 3-HABIT RULE

WEAR / WIPE / STORE

PLANDERFUL / CARE EDIT 2026

Protect it before damage starts

Jewelry should be the last thing on and the first thing off.

PUT ON LAST

After perfume, lotion and hairspray.

REMOVE FIRST

Before sleep, sport or household work.

KEEP DRY

Before showering, swimming or washing.

CHECK

Look for loose stones and bent clasps.

WIPE

Soft, dry cloth after every wear.

ROTATE

Give plated pieces time away from friction.

The gentle clean

Use water only when every material and setting is suitable.

1

INSPECT

Stop if a stone, prong or clasp feels loose.

2

PREPARE

Lukewarm water + one drop of mild soap.

3

CLEAN

Fingertips or an extra-soft brush. No force.

4

RINSE & DRY

Rinse briefly. Pat dry. Air-dry fully.

NEVER BY DEFAULT

Bleach / toothpaste / abrasives / heat / ultrasonic / steam

Care by material

When materials are mixed, follow the rule for the most delicate part.

STERLING SILVER

DO Dry cloth; silver cloth for tarnish

AVOID Chlorine / bleach / rough paste

ENAMEL & PEARL

DO Barely damp cloth; dry flat

AVOID Soaking / acids / ultrasonic

STEEL & COATED METAL

DO Wipe gently; dry completely

AVOID Hard polish / prolonged moisture

PLATED & MIXED

DO Soft dry cloth; reduce friction

AVOID Scrubbing / soaking / chemicals

Gemstone quick guide

Hardness does not prevent chips, loose settings or surface damage.

MOISSANITE & ZIRCON

DO Mild soap only when the setting is water-safe.

AVOID Protect facet edges from impact.

PEARL

DO Wipe after wear; air-dry before storage.

AVOID No soaking, steam or ultrasonic.

LAPIS & POROUS STONES

DO Use a slightly damp cloth; dry at once.

AVOID Keep away from cleaners.

TOPAZ & FACETED STONES

DO Gentle soap and water when suitable.

AVOID Avoid heat shock and hard knocks.

Before cleaning any stone

- 1 Check the setting.
- 2 Check for glue or plating.
- 3 Check the product care note.
- 4 When unsure: dry cloth only.

Storage & travel

- **FASTEN** Close chains and clasps.
- **SEPARATE** One piece per pouch or compartment.
- **KEEP DRY** Avoid bathrooms, heat and sunlight.
- **PACK FLAT** Use a travel case; never loose in a bag.
- **CHECK** Inspect before wearing after travel.

A brown suede care pouch with a gold drawstring is shown against a light-colored, textured background. The pouch is rectangular with a drawstring closure at the top. The drawstring is made of a gold-colored cord and has a knot at the top. The pouch is shown from a slightly elevated angle, showing its top and side. The background is a light-colored, textured surface, possibly a piece of paper or fabric, with some shadows and highlights.

06 / INCLUDED CARE GIFT

EcoLuxe Wrap & Shine

Your complimentary Planderful care pouch.

1

LIGHT TOUCH-UP

Gently wipe compatible smooth metal.

2

WRAP SEPARATELY

Place one clean, dry piece inside.

3

CLOSE & STORE

Pull cords gently; keep the pouch dry.

GENTLE CARE ONLY

Not for deep cleaning. Avoid rubbing plated, pearl, enamel, porous or oxidized details.

Stop wearing it when...

Home care preserves a piece. It does not repair structural damage.

STONE MOVES

Stop. Protect the piece. Ask a jeweler.

PRONG OR CLASP BENDS

Do not force it back into shape.

CHAIN BREAKS

Store every part; avoid household glue.

PLATING LIFTS

Stop polishing. Reduce friction.

DISCOLORATION REMAINS

Get material-specific advice.

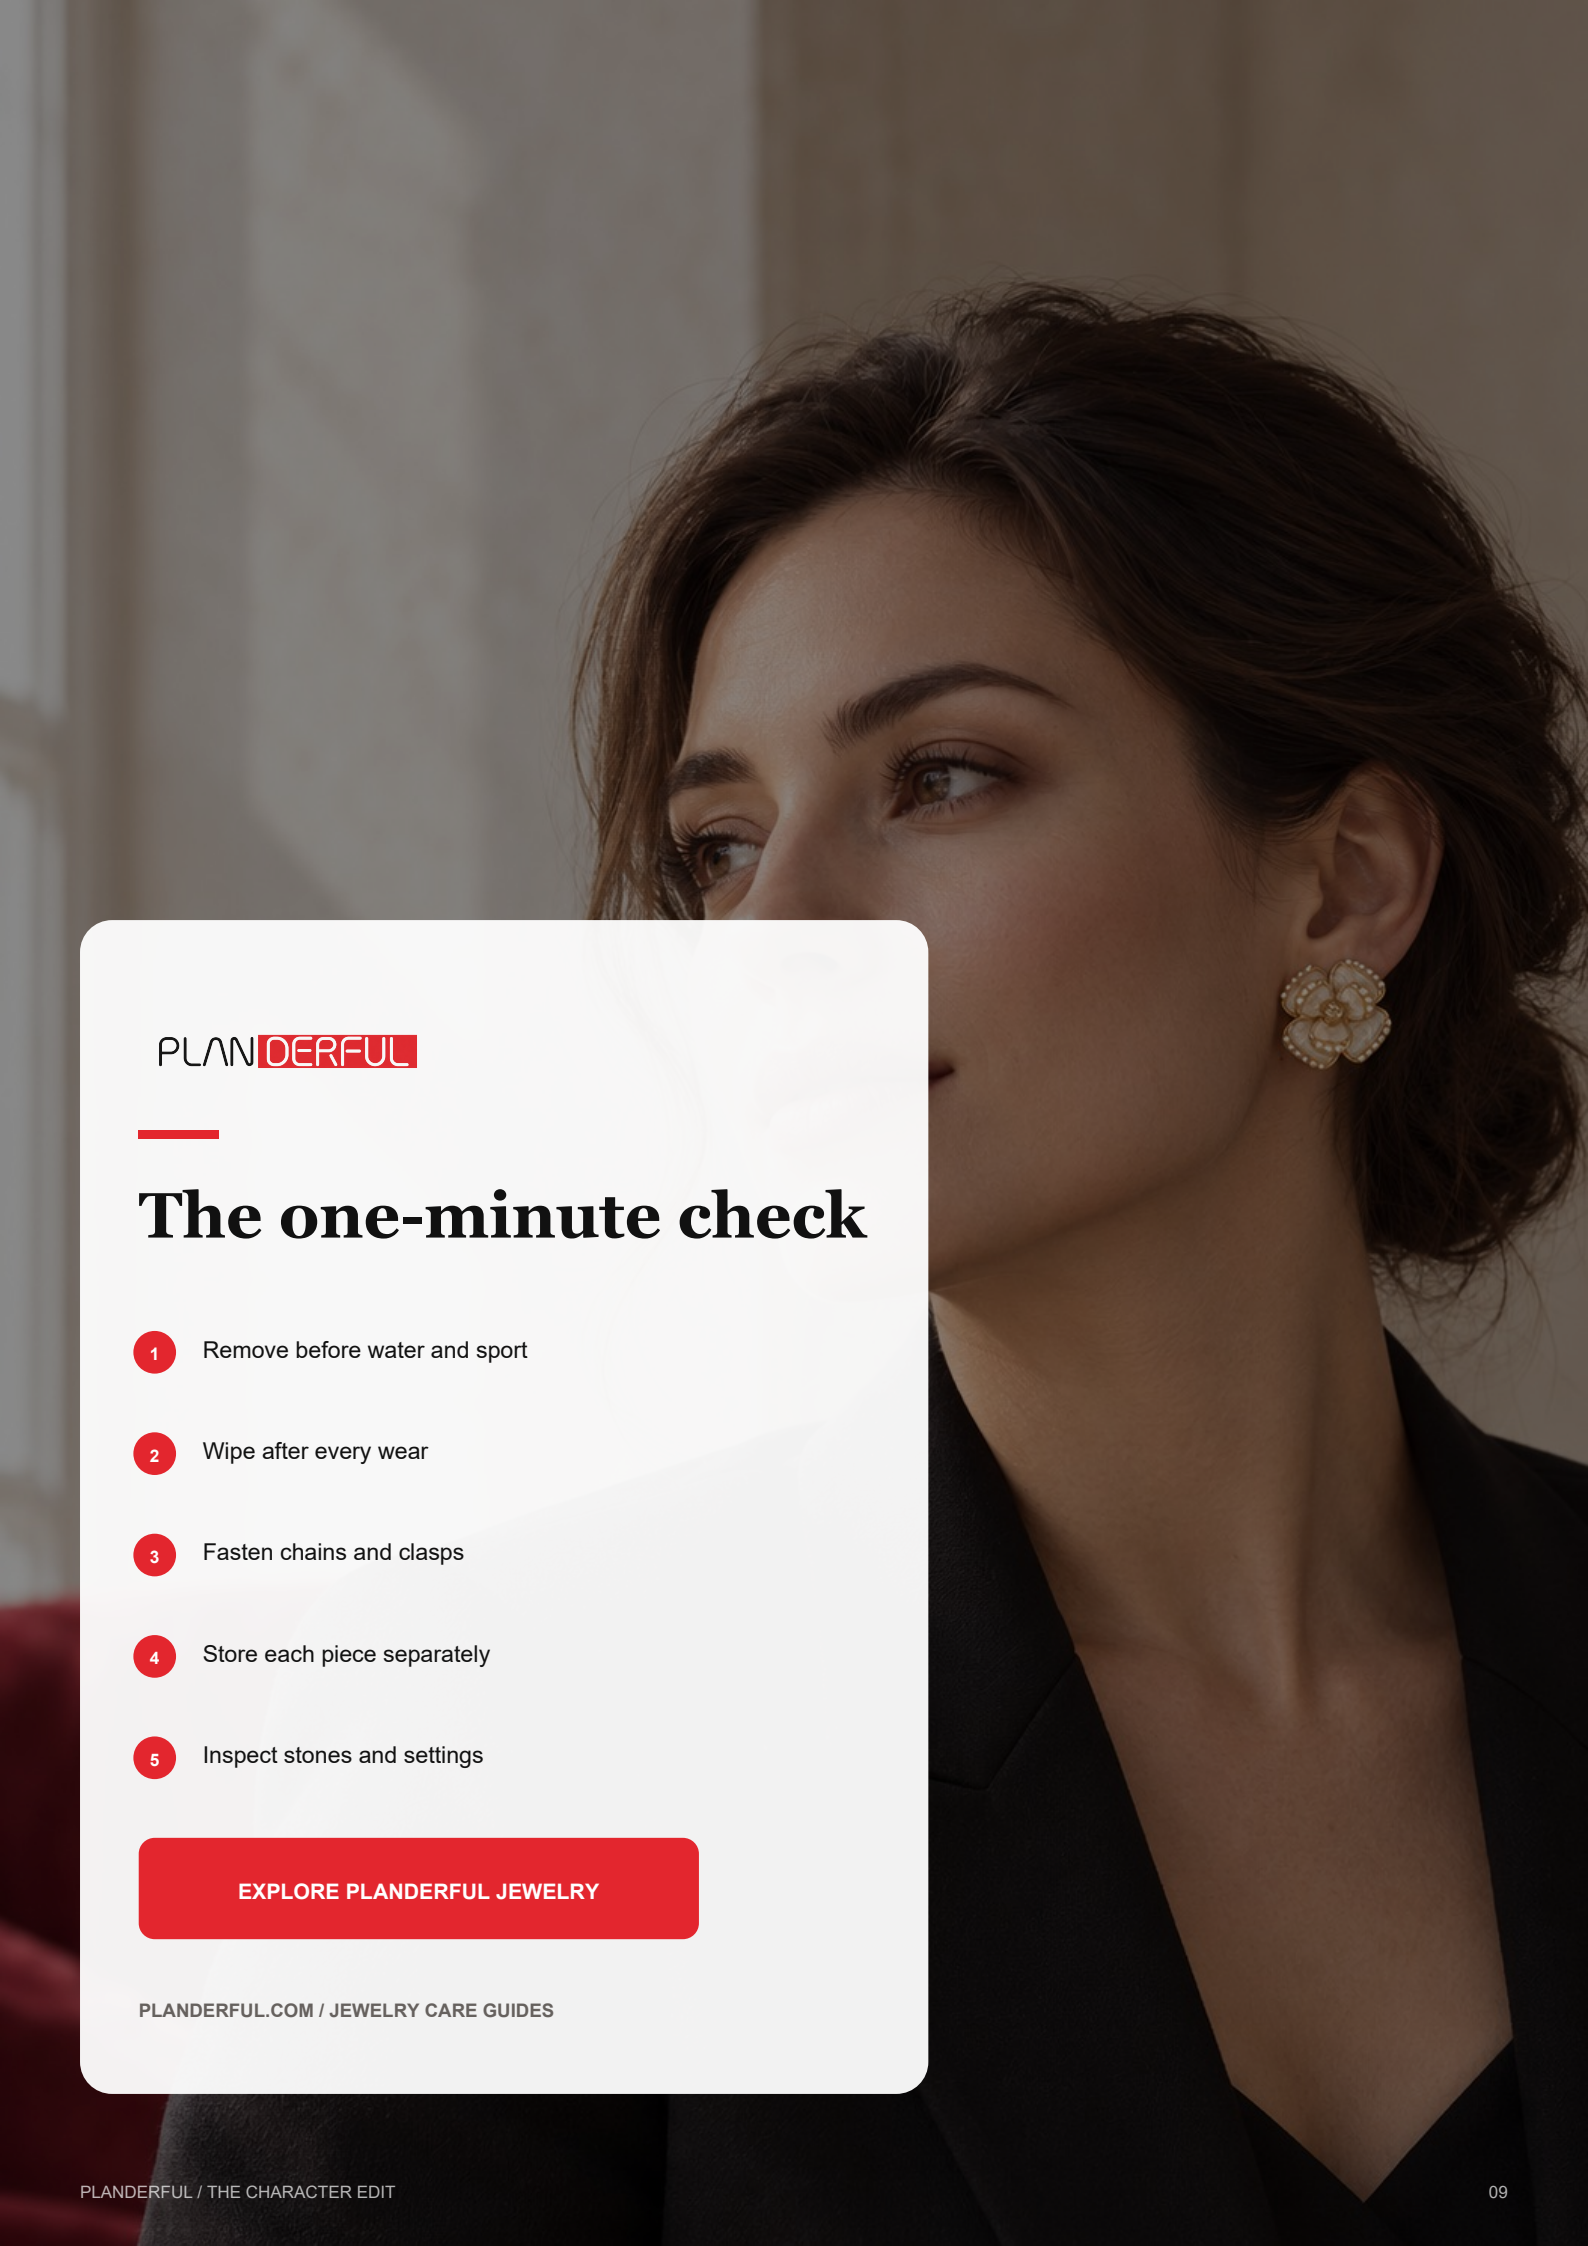

Care cloth: use lightly

Use a clean jewelry-care cloth on compatible metal surfaces. Stop if color transfers or the finish changes.

DO NOT RUB plated / porous / textured / intentionally oxidized details

WHEN IN DOUBT stop and seek professional advice

PLANDERFUL

The one-minute check

- 1 Remove before water and sport
- 2 Wipe after every wear
- 3 Fasten chains and clasps
- 4 Store each piece separately
- 5 Inspect stones and settings
